PROFESSIONAL SUMMARY

Android Developer with 4 years of experience building scalable and high-performance mobile applications using Kotlin and Jetpack Compose. Expertise in MVVM, Clean Architecture, and offline-first app design, with hands-on experience in REST API integration, performance optimization, and real-time data handling. Proven ability to develop efficient, maintainable, and user-centric applications. Available for immediate joining.

TECHNICAL SKILLS

- **Languages:** Kotlin, Java, SQL, PHP
- **Android Development:** Jetpack Compose, Android SDK, XML, Material Design (Material3), RecyclerView
- **Architecture & Design Patterns:** MVVM, Clean Architecture, MVI, Offline-First Architecture
- **Networking & APIs:** RESTful APIs, Retrofit, Volley, JSON Parsing
- **Database:** Room, SQLite, MySQL
- **Concurrency:** Kotlin Coroutines, Flow, StateFlow, LiveData
- **Tools & Libraries:** Hilt, ExoPlayer, BroadcastReceiver, Foreground Services
- **Backend:** Node.js (API Development & Integration)

WORK EXPERIENCE

Android Developer | Rapid Staffing and Training Solutions

Apr 2022 – Mar 2026

- Built an AI-powered chat application using Kotlin and Jetpack Compose with real-time responses via Gemini API
- Implemented offline-first architecture using Room, improving data availability and reducing API dependency
- Optimized API calls using Retrofit and Coroutines, reducing network latency by ~30%
- Designed responsive chat UI with typing indicators, message states, and smooth animations
- Managed UI state using ViewModel and StateFlow for efficient and reactive updates
- Improved app performance by minimizing recompositions and optimizing data flow
- Followed MVVM and Clean Architecture to ensure scalability and maintainability

PROJECTS

AI CHAT APPLICATION

- Developed an AI-powered chat application using Kotlin and Jetpack Compose with real-time responses via Gemini API
- Implemented offline caching using Room, improving data availability and reducing API dependency
- Managed UI state using StateFlow for seamless and reactive user experience
- Designed modern, responsive UI ensuring smooth performance and usability

AUDIO & VIDEO PLAYER

- Developed a media player using ExoPlayer with support for audio and video playback
- Implemented advanced features including Picture-in-Picture mode, Foreground Services, and Notifications
- Optimized media loading and buffering to improve playback smoothness
- Improved performance by managing resources efficiently during background playback

FILE SHARING APPLICATION

- Developed a file-sharing system using Java with unique access codes for controlled file access
 - Designed efficient file handling and retrieval mechanisms for faster access
 - Optimized file access logic, reducing retrieval time by ~30% and improving overall performance
-

EDUCATION

Master of Computer Applications(MCA)

Indira Gandhi National Open University (IGNOU) | 2023 – 2025
Percentage: 68%

Bachelor of Computer Applications (BCA)

Maharshi Dayanand University, Rohtak | 2016 – 2019
CGPA: 7.0 / 10 (First Division)

CERTIFICATIONS

- Full Stack Android Development – Neat Roots
 - Android App Development Bootcamp(Kotlin) – Udemy
 - Master Android by Building Apps – Udemy
 - Machine Learning Crash Course – Google
-

HOBBIES

- Meditation
- Diary Writing
